It must be demonstrated . . .

South Carolina

Number and Percentage of COVID-19 Cases by Age

Figure 1. South Carolina: Number and percentage of COVID-19 cases by age.

Source: South Carolina Department of Health and Environmental Control (SCDHEC)

COVID-19 Cases

Average Age: 41 Years
 Median Age: 39 Years
 Maximum Age: 110 Years
 Minimum Age: 0 Years

*The data points are updated regularly by SCDHEC; therefore, this graph might not reflect the exact count posted on SCDHEC website.

Horry County

Number and Percentage of COVID-19 Cases by Age

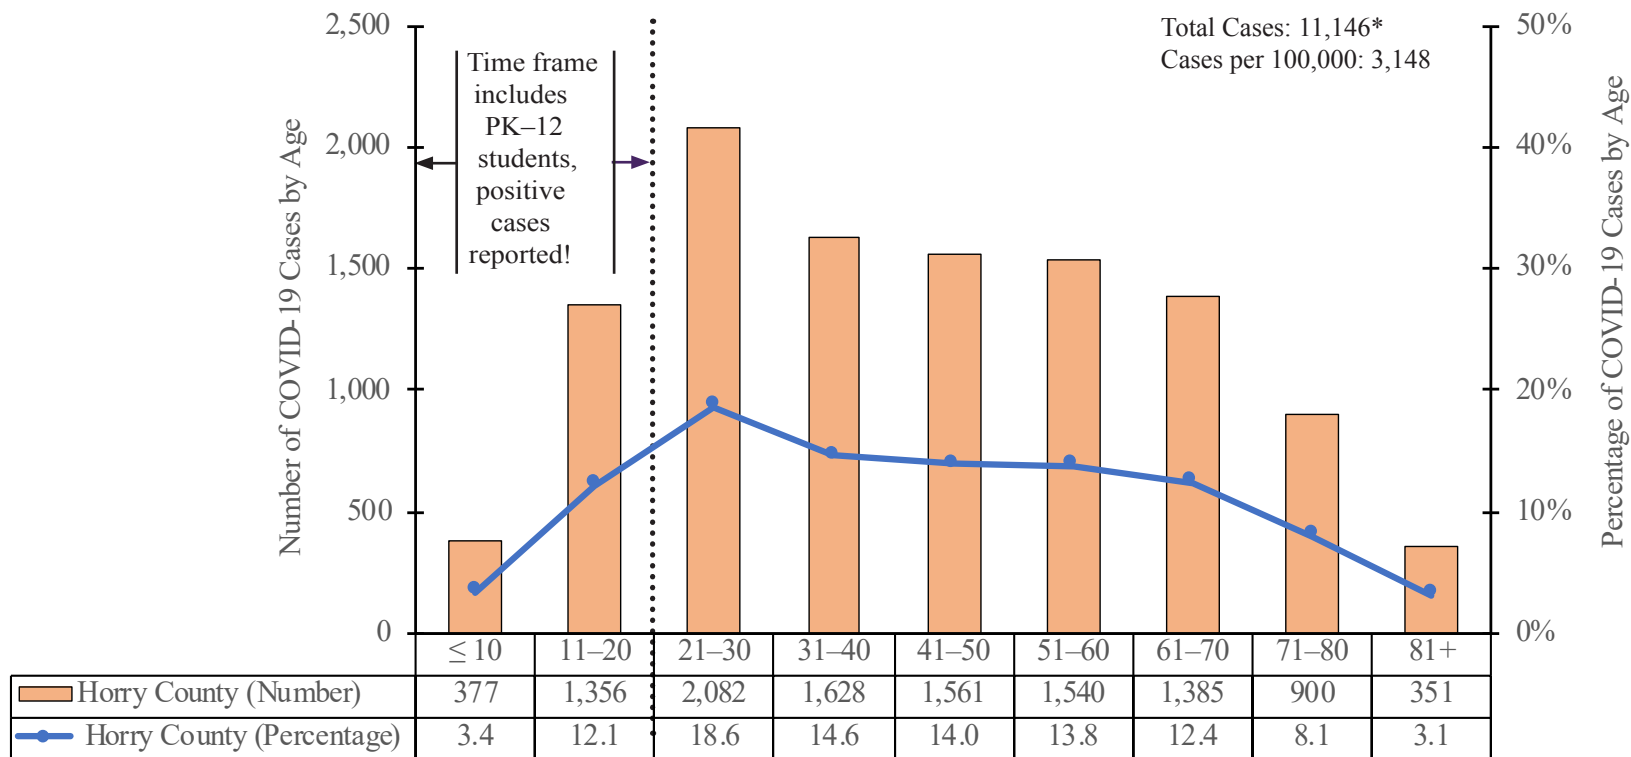

Figure 2. Horry County: Number and percentage of COVID-19 cases by age.

Source: South Carolina Department of Health and Environmental Control (SCDHEC)

COVID-19 Cases by Age

Average Age: 41 Years
 Median Age: 39 Years
 Maximum Age: 110 Years
 Minimum Age: 0

*The data points are updated regularly by SCDHEC; therefore, this graph might not reflect the exact count posted on SCDHEC website.

South Carolina

Number and Percentage of COVID-19 Deaths by Age

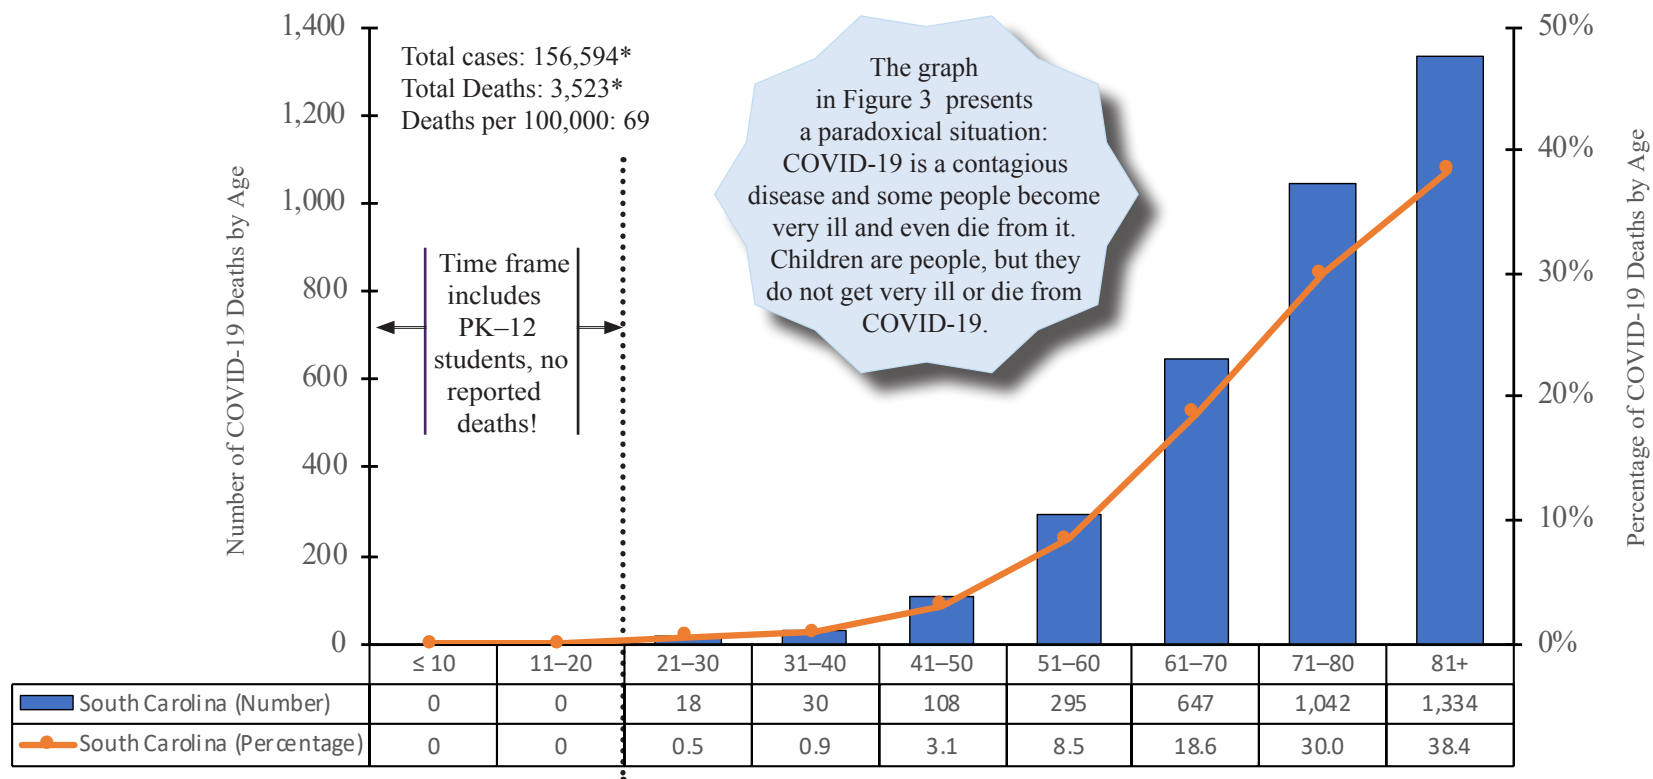

Figure 3. South Carolina: Number and percentage of COVID-19 deaths by age.

Source: South Carolina Department of Health and Environmental Control (SCDHEC)

COVID-19 Deaths

Average Age: 75 Years
Median Age: 77 Years
Maximum Age: 105 Years
Minimum Age: 0 Years

*The data points are updated regularly by SCDHEC; therefore, this graph might not reflect the exact count posted on SCDHEC website.

Horry County

Number and Percentage of COVID-19 Deaths by Age

The graph in Figure 4 presents a paradoxical situation: COVID-19 is a contagious disease and some people become very ill and even die from it. Children are people, but they do not get very ill or die from COVID-19.

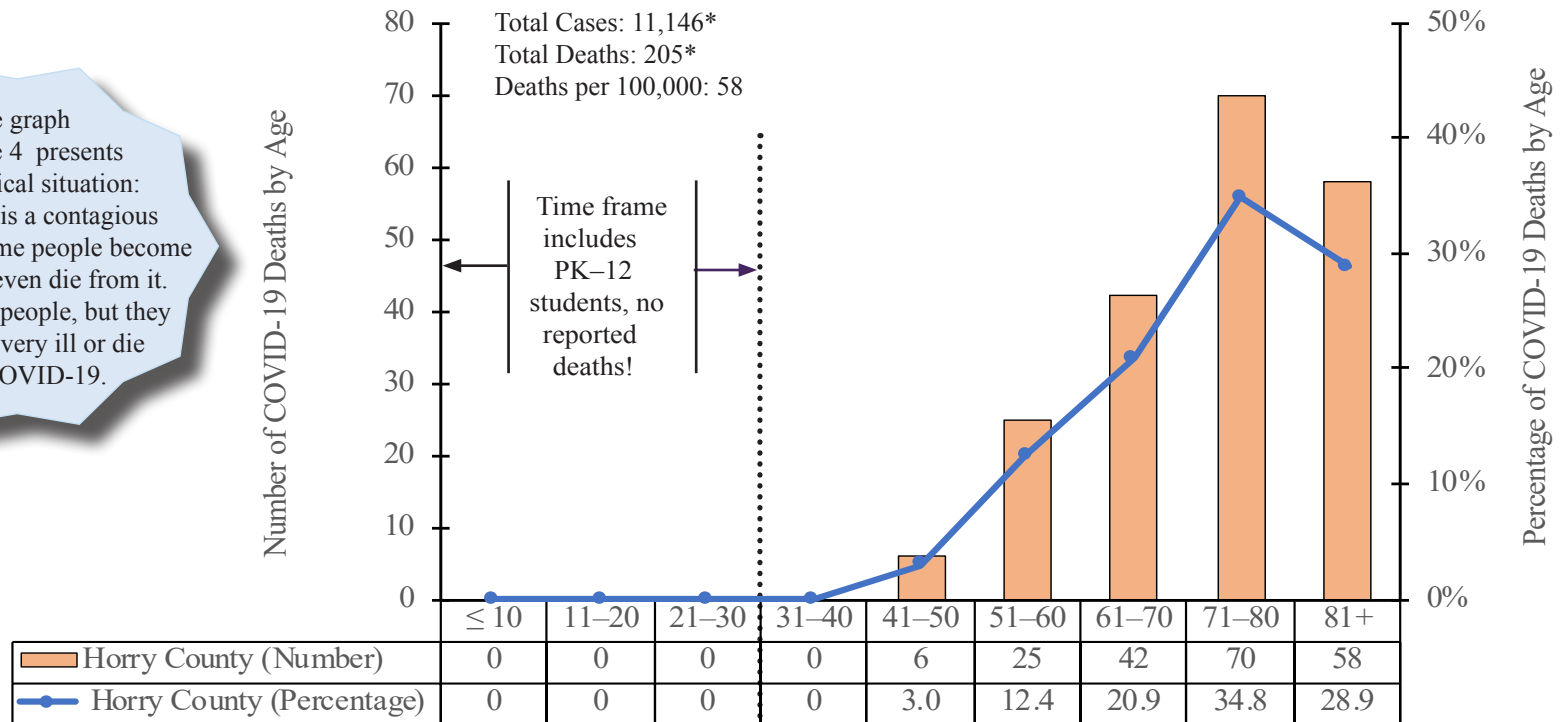

Figure 4. Horry County: Number and percentage of COVID-19 deaths by age.

Source: South Carolina Department of Health and Environmental Control (SCDHEC)

COVID-19 Deaths by Age

Average Age: 72 Years
 Median Age: 74 Years
 Maximum Age: 103 Years
 Minimum Age: 24

*The data points are updated regularly by SCDHEC; therefore, this graph might not reflect the exact count posted on SCDHEC website.

South Carolina

Percentage of COVID-19 Cases vs. COVID-19 Deaths by Age

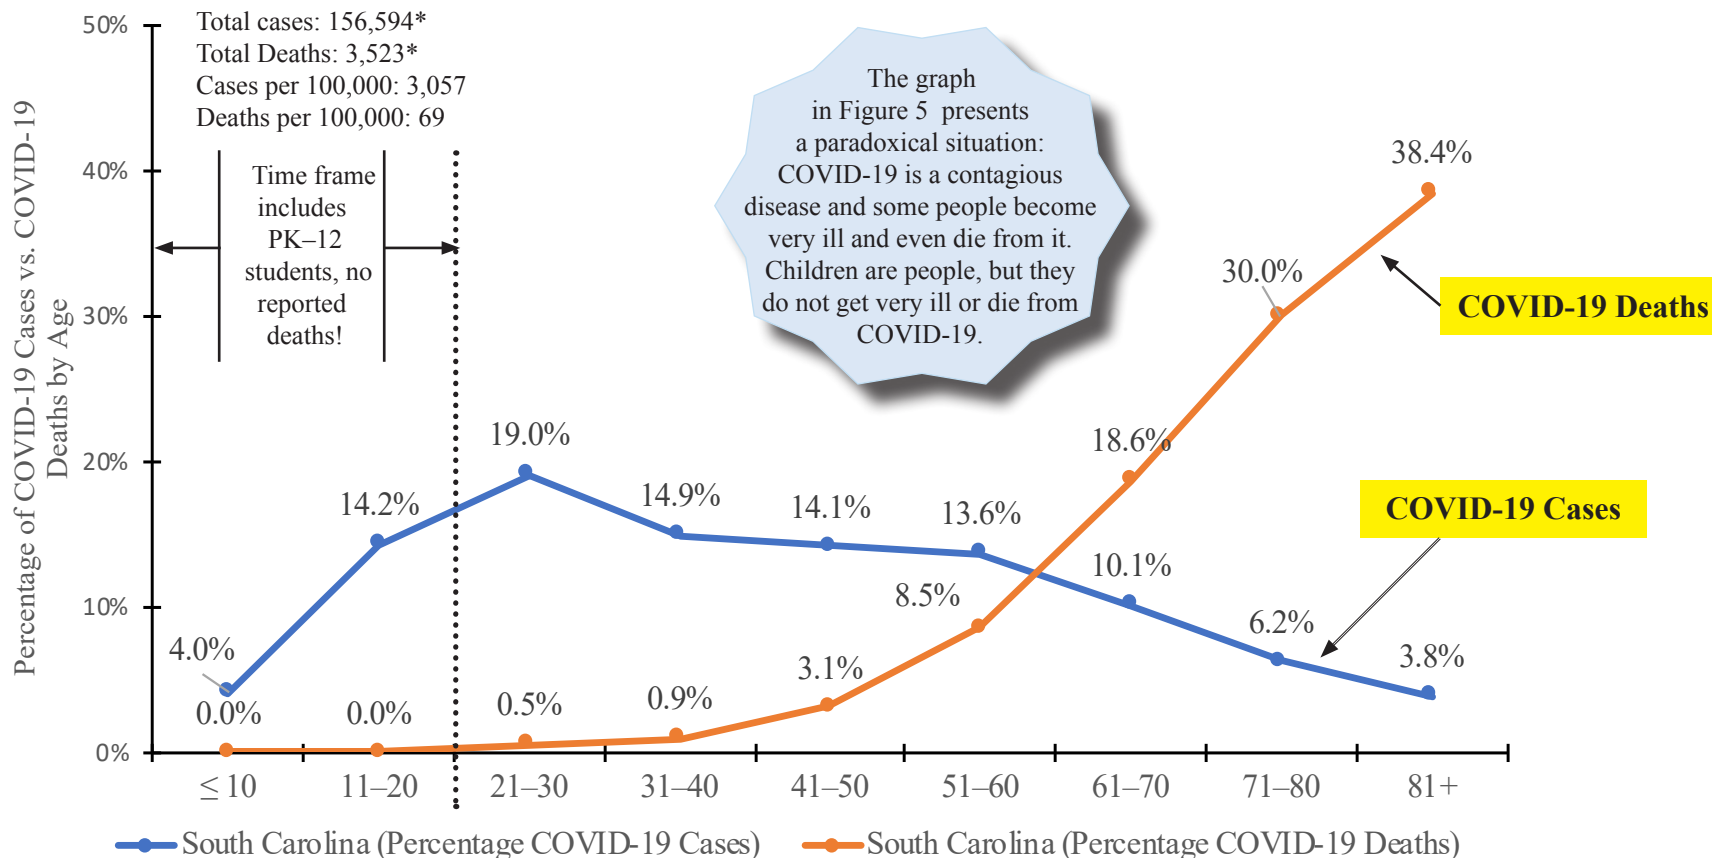

Figure 5. South Carolina: Percentage of COVID-19 cases vs. COVID-19 deaths by age.

COVID-19 Cases

Average Age: 41 Years
 Median Age: 39 Years
 Maximum Age: 110 Years
 Minimum Age: 0 Years
